We have not, for a considerable time, read a book which presents so large an amount of solid information in so attractive a shape."—*Athenaeum*.

REUMONT. Translated from the German by ROBERT HARRISON. 2 vols. 8vo, 30s.

To the politician it will be a Thesaurus of the operation of theories and principles of government; to the devotee of biographical literature it will be a history of the career and work of a host of great men; to the votary of art it will be a manual of its principles and its progress; to the scholar it will be an epitome of the rise of world-famous libraries; to those who want nothing more than a vividly coloured account of society, men, manners, and morals, at one of the most splendid epochs of the world's history, it will be a storehouse of constant delight."—*The World*, Nov. 22."The period is in many ways unique almost in the history of the world; a period when, in the same frame, we find at work with equal energy the processes of life and death—of youthful vigour and senile decay. . . . Master of his subject as Herr von Reumont is throughout, it is more especially in his chapters on Florentine literature and art, on the work of the Humanists, on the old life of the gay citizens on the Arno, that the reader will turn with ever-renewed interest. The translation is everywhere readable and easy."—*Graphic*."The translation is executed with admirable care and skill."—*Daily News*.
